

LET'S GROW KIDS Action Network

Petition for Vermont's Children

I support prioritizing children and increasing public investment in high-quality, affordable child care to ensure every Vermont child has a strong start. Priorities for the 2022 Legislative session include funding to support:

- Emergency compensation and recruitment tools for early childhood educators.
- Funding the Child Care Financing Study to move forward as passed in H.171.
- Investments in the Child Care Financial Assistance Program (CCFAP) to make child care more affordable for families.
- Ensuring the continued implementation of H.171 (the child care bill).
